50 Dark Shirts/Hour

PRINT DTG & DTF

transfers on one machine

DTG Digital™ Q1 Hybrid

The **Q1 Hybrid Series** printer sets a new benchmark in desktop DTG printer performance. Print more garments per hour with dual print heads that deliver faster print speeds. Expand the range of items you can decorate using both DTG and DTF technology in a single print platform. Simple switch feature from DTG to DTF transfers for true application versatility.

- ➔ Up to 50 dark garments per hour in production mode and 75 light shirts
- ➔ Linear motion guide carriage with auto height adjustment
- ➔ QLVP patented (quick load vacuum platens)
- ➔ Heavy duty 2 stage ink mist extraction
- ➔ New formula EDTG series inks designed for longer print head life
- ➔ Advanced auto head and cap cleaning systems
- ➔ User replaceable bulk 1.0liter ink packs
- ➔ Patented white ink recirculation/white ink flush through on demand system A.I.R®
- ➔ Reverse firmware for transfer prints inbuilt
- ➔ Two year warranty first year including print heads
- ➔ Easy to set-up and designed for industrial use
- ➔ Dual trailing staggered head array

Weight	DTG Q1 145.6kg (321lb) (boxed weight will vary)
	Table 42Kg (92.5lb)

The DTG Digital Q1 Hybrid garment printer establishes a new standard for professional direct prints for all finished garments and fashion panels. The Q Hybrid Series printers are designed for both direct to garment printing (DTG) and direct to film (DTF) for heat transfer applications from a single printing platform.

The Q Hybrid Series printers enable garment decorators to expand the range of products they can decorate using both direct and indirect methods of garment decoration.
