

**COLIBRI  
TECHNICS**

# CTL 1700H

**Full-automatic laminator  
with cutting and heating**

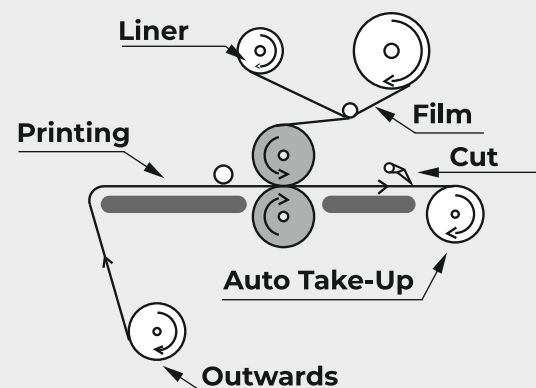

**INDUSTRIAL MODEL**

**WITH PNEUMATIC ROLLS**

- Perfect Laminating Quality with Stronger Roller Pressure
- Laminating & cutting with max speed of 18m/min
- Hot and cold lamination
- Fully adjustable speed, nig-gap, and pressure
- Ideal fit for mounting & laminating pressure-sensitive graphics
- Ergonomic control panel
- Long life-span of laminating roller
- Laminating width of 1630mm to handle various ranges of substrate & media
- Adjustable speed settings
- Footswitch for convenient operation on every side of laminator

Max lamination width	1630mm/64"
Max lamination thickness	28mm/1.1"
Max temp	60°C
Warm up time	5-10 min
Heating	Infrared
Up and down	Pneumatic
Max speed	18m/min
Power consumption	0.9-1.8 kw/h
Power input	1500w
Volt	110/220v
Net weight	185kg

**With Liner**
